# Europe - Challenge is comming

\* The inaugurated Austrian Friends of Race Walking called it already "European Walker Cup". In fact, from the common idea of a German - Austrian Scoring our idea is extended in Europe in 2015.

\* When the idea was presented to Dieter Massin, the honorary president of EMA, he asked: "What is the benefit for the masters?" The answer came immediately, was unambiguous and clear: "We are representing everyone!"

In Europe the masters have the majority of all assets. In Race Walking, too. The masters are not only coaches and/or organisers. They are also active. Enable their participations until many good performances. Masters are a role model and partner for the young and sometimes even tough opponents for elite walkers. And just as quickly Dieter Massin replied: "I am with you!"

**Dieter Massin is the patron of our competition series.**

*(EMA is the successor to the EVAA, the Association of European Masters/Veterans)*

\* **What is our intention?**

\* The Europe-Challenge is a series of competitions. The series begins at November 1 of one year and ends at October 31 of the following year.

\* The competition series automatically includes all official dates of the Championships and Cups of IAAF, EAA (Permit), WMA, EMA, WMG and EMG. Partnering can be up to three appointments per country at maximum. Volunteer mentors may be other associations, also organisers, teams or individuals. Application deadline is mid-June, respectively. An application can thus also be done afterwards. The fee for the account of a voluntary event is 30 Euro.

\* The evaluation is done according to the principles of the "German Walkers´Cup".

a) at least four matches, up to six, the top six, come into the rating

b) the service on all routes (*according the tournament protocol*) are converted into points

c) the points which are taken can point to the current list of the "German Walkers´Cup 2015"

\* We determine from the competitions, the TOP 100 Europe´s throughout the season

\* A certificate / diploma may receive any walker of Europe that:

a) has played at least four of the selected competitions (*maximum top six*)

b) a visual evidence of his best races wanted for this diploma

c) expresses his "active participation" with a fee of 10 Euro to mid-June of the year

d) as evidence of his activities even want a one year medal of the Challenge

\* We want to guarantee an affordable, interesting comparison with existing competitions throughout the year! Open to everybody, due to the unique system offers the beginner and the elite, father and son, student and race-walker, masters and free-time-athlete and top-rounder ideal comparisons throughout the year.

\* Start opportunities for everybody! The goal will be to enable a comparison through the year for all walkers. A participation can not be denied by age, region, limit or too long distances.

\* **Important, please consider the last appointment in 2015 :**

\* **Registration for voluntary event for scoring:**

\* **Notification of active participation in the Europe - Challenge:**

**June 8**  
**Appoint-**
